Oak Class Geography Topic Homework – due Friday 11th December

This half term we are learning about Fair Trade.

Have you ever wondered where your clothes come from and who makes them? For your homework project this half term, I would like you to investigate clothing brands and find out where things are made and if any of the companies make a commitment to produce these clothes ethically (for example not made by children, workers are fairly paid and work in hygienic, safe conditions with regular breaks and meals).

Task 1:

Ask each member of you family (including you) to choose their five favourite items of clothing. Record the company that makes it and where it was made (usually found on the label). Record this in a tally chart and then plot each piece of clothes' country of manufacture on a world map.

Task 2:

Choose one of the clothing manufacturers and find out as much as you can about it.
This could include when it began making clothes, number of employees, countries in which it operates, the amount of money it makes, the number of items of clothing it makes each year, the amount of money it makes, any ethical commitments it makes.

Using this research, create a fact file to present to the rest of the class.
